PERSONAL BIO

Since entering into a more natural lifestyle, I have immersed myself in the study of herbs, plants, and nutrition. I have studied at the Southwest Institute of Healing Arts and The Herb Stop, completing 2,000 total hours of education and receiving numerous certificates in the field.

I share this knowledge with clients in nutrition classes, providing education on shopping and preparing healthy alternatives. These classes empower attendees with the ability to incorporate a rainbow of fruits, vegetables and sensible food choices, while making minimal changes to their daily lives.

When not pursuing my passion, I spend time with my two teenage children, Alan and Melissa. Alan is a college baseball player and Melissa is the musician in the family.
